

Special Year-End Note

From the Executive Director

Dear Ebony,

You could say that the AMCP Foundation is **research-oriented and patient-centered**. You could tell a colleague that we focus on **introducing student pharmacists to managed care careers**. All of that is true! But I hope you would also agree that your AMCP Foundation is **responsive to your feedback**.

In 2017, our Research Symposium expanded through a joint call for abstracts with *JMCP* and a **recap webinar**. We added a **new internship** and increased the number of Sunrise Yoga classes. It's now easier to participate in our **charity sock drive** at AMCP meetings because you can help families in need through our online wish list. We expand existing programs and pilot new initiatives **because you help us identify needs within managed care pharmacy**.

You also help us develop resources to act on opportunities. Even with tax reform upon us, charitable contributions will continue to provide this organization **crucial financial support and sustainability**. 775 AMCP members and managed care pharmacy professionals agree, as they've already donated to the AMCP Foundation this year. **It's not too late** to stand with these pharmacists and health care leaders. If you haven't already, **please give today!**

To each of those donors and our funding partners, to the Trustees and volunteers, AMCP and Foundation staff, interns and attendees, awardees and readers... **Thank you for making 2017 our best year yet!**

Gratefully,
