What is Managed Care?

Managed care is often viewed as “insurance company” pharmacy, but it’s actually the application of business principles to health care. It focuses on lowering cost and improving quality and incorporating the consideration of value into decision-making.

Managed Care Helps Prepare Student Pharmacists for Many Fields of Practice

Want to learn more? Set up a conversation with an AMCP diplomat!

Diplomats are AMCP members who volunteer to work as a managed care pharmacy resource to students and faculty at schools and colleges of pharmacy.

Email studentdevelopment@amcp.org for more information!
