

AMCP Call for Abstracts AMCP Nexus 2019

AMCP invites submissions for abstracts to be presented at the **AMCP Nexus 2019**, which will be held **October 29 – November 1**, at the Gaylord National Hotel & Convention Center in National Harbor, Maryland. Poster presentations provide a forum for managed care researchers to share their insights and outcomes with AMCP Nexus attendees, who can interact with authors and discuss their findings. Posters will be displayed in the exhibit hall during the Opening Reception on Wednesday, October 30 from 5:30-7:30pm and during lunch on Thursday, October 31 from 11:30 am – 2:30pm.

For each poster, at least one author must register for AMCP Nexus 2019 and be available during the poster presentations to discuss the research and findings. Every accepted abstract must have one unique author registered to attend the meeting. “Unique” means the same author will not be able to represent multiple abstracts. The first author does not need to be the registered or presenting author.

Podium Session

The 3 most highly rated abstracts will be selected for a 15-minute podium presentation as part of an education session at AMCP Nexus 2019. Exact date and location of the podium session will be communicated to the presenting faculty once final decisions are made on all abstract submissions. Based on the content, the podium presentations may be accredited for continuing pharmacy education credit, so the presentations must comply with AMCP and Accreditation Council for Pharmacy Education (ACPE) requirements. If your abstract is selected for a podium presentation, the AMCP Education Department will work directly with the presenter. Podium presenters will still have the option to present with the other posters.

*AMCP Foundation Best Student Pharmacist, Resident/Fellow and Best Graduate Student Poster Competition is open to abstracts submitted in this category. [CLICK HERE](#) for more information on the competition.

Important Dates

- **Wednesday, June 12, 2019, 3:30 pm Eastern** —All poster abstracts must be submitted no later than 3:30 pm Eastern Time.
- **July 31, 2019** —Accept/reject email notification will be sent.

How to Submit an Abstract

Abstracts must be submitted online. Please [CLICK HERE](#) to begin your submission.

The submission site will guide the submitter through the process. Once started, work can be saved and completed at a future time. Abstracts can be revised at any time before the submission deadline, even if the abstract has already been submitted.

Abstracts are acknowledged by email immediately after being submitted. If you do not receive an email acknowledgment, please contact Michelle Perkins at mperkins@amcp.org.

For general tips on writing a research abstract, please refer to this link and related articles published on the topic:

<http://www.ncbi.nlm.nih.gov/pmc/articles/PMC311420>

AUTHOR CATEGORIES

Student authors who are the first author have the option of submitting complete or incomplete studies through a non-reviewed track. **All other abstracts must be submitted through the review track** and have complete results at the time of submission.

Professional Reviewed: The majority of abstracts will be submitted to this category. Importantly, research results must be included in all abstracts submitted to this category. Student pharmacists, residents, fellows and graduate students **are eligible** for this author category, but students who submit to the professional reviewed category **will not be eligible** for the Best Student Pharmacist, Resident/Fellow and Best Graduate Student poster competition.

Student Pharmacist/Resident/Fellow/Graduate Student: This category is only available for submissions with **first authors** that are student pharmacists, residents, fellows, and/or graduate students. These submissions are not peer-reviewed and are not required to have results at time of submission. However, results are expected to be included in the poster presentation. Abstracts submitted to this category are not eligible for inclusion in the podium session. Student abstracts are not printed in the JMCP abstract supplement; however, the abstract title and author list will be included in the supplement. **If the presenter is not a student pharmacist, resident, fellow, or graduate student, please be aware that the poster will not be eligible for the AMCP Foundation Best Student Pharmacist, Resident/Fellow and Best Graduate Student Poster competition.**

Encore Presenter: This category applies to abstracts that have been presented and published with another organization. Authors of these abstracts will display the poster at the **AMCP Nexus 2019** using the format required for the meeting. **Encore abstracts are not eligible for podium presentations and will not be published in the JMCP Meeting Abstracts supplement because of the copyright ownership of the original presenting organization. The abstract title and author list will be included in the supplement.**

Below are the required fields for your submission:

AUTHORS

Author information is entered, and author order is selected. **If the submitter is not an author, the submitter's name is removed from the author list.**

By submitting an abstract, authors agree to the following requirements:

- All authors have met the [authorship criteria](#) defined by the International Committee for Medical Journal Editors.
- Abstracts must present content not previously published as an abstract or article (except for Encore abstracts).
- At least one author of each accepted abstract (preferably the primary author) must register for and attend the meeting.
- **Changes to the abstracts will not be considered after the submission deadline.**

SUBMISSION TYPE

One of two abstract types (defined below) is selected in this step. Once selected, the type for that abstract cannot be changed, but a new abstract may be initiated by the same author.

CHOICE	TYPE	DEFINITION
<input checked="" type="radio"/>	Research Reports	Describe completed original research on managed care pharmacy services or health care interventions. Examples include (but are not limited to) observational studies using administrative claims, reports of the effects of unique benefit design strategies, and analyses of the effects of innovative administrative or clinical programs.
<input type="radio"/>	Economic Models	Discuss models that support various clinical decisions before prospective studies using actual health plan data can be conducted. For example, an economic model could be used to predict the budget impact of a new pharmaceutical product on a health care system.

TITLE/BODY

Disease or Condition Grouping

Based on ICD-10 codes, insert the ICD-10 block that best describes the disease, diseases, or conditions described in the abstract. These codes are only used to arrange abstracts in the exhibit hall and in the *JMCP* Meeting Abstracts supplement. (This is a useful site to look up ICD-10 codes: <http://www.icd10data.com/ICD10CM/>.) U00 is used for unclassified topics, such as care management, specialty pharmacy, rare diseases, pharmacy education, star ratings, pharmacist services, medication therapy management (MTM), outcome analyzers, Medicare Part D, multi-disease studies, accountable care organizations, and the Affordable Care Act.

Abstract Structure

The abstract headings are Background, Objective, Methods, Results, and Conclusions.

The maximum number of characters in the abstract is 2,600, including spaces, and the total number used is tabulated and reported by the submission site. This count does NOT include title, authors, or disclosure statements but does include sponsorship.

Sponsorship

List all sponsors in relative order of sponsorship level. If the work was sponsored fully or partly by your employer, list its name. In-kind sponsors should also be listed.

DISCLOSURES

* *JMCP* Publication Rights

Encore abstracts will not be published in the *JMCP* Meeting Abstracts supplement due to the copyright ownership of the original presenting organization.

Accepted Professional Reviewed abstracts will be published in the *JMCP* Meeting Abstracts supplement. As such, copyright clearance must be obtained by *JMCP* (see below). One of the following conditions applies to your reviewed abstract submission.

-
- As author of this poster abstract, I represent that I am the owner of any copyright(s) covering the abstract, and in consideration of the publication thereof, I hereby grant and assign to the Academy of Managed Care Pharmacy (AMCP) an exclusive copyright to publish, reproduce, and/or distribute all or any portion of the abstract.
 - This work was conducted as part of my official duties as an employee of the United States or other government and is therefore in the public domain. Copyright does not apply.
 - This work was conducted in the course of my work as a “work-made-for-hire,” and the work is therefore owned by the organization that hired me to produce this abstract. In consideration of the publication thereof, I attest that the owner of the “work-made-for hire” grants and assigns to the Academy of Managed Care Pharmacy (AMCP) an exclusive copyright to publish, reproduce, and/or distribute all or any portion of the abstract.
 - This work is either a Student Pharmacist/Resident/Fellow/Graduate Student non-reviewed abstract, or an Encore abstract, and copyright clearance is not required.

REVIEW AND SUBMISSION

Submission Instructions

Before submitting, please review your submission based on the following selection criteria, which are also used for *JMCP* manuscript review. Those abstracts with the highest scores (except for Encore abstracts and Student Pharmacist/Resident/Fellow/Graduate Student non-reviewed categories) will be designated in the *JMCP* Meeting Abstracts supplement and will show a Gold, Silver or Bronze ribbon in the exhibit hall.

- Relevance to managed care
- Originality
- Quality of the work
- Bias
- Clarity

Even after pressing submit, an abstract submission can be revised up to the close of abstract submissions.

View Proof

The proof is the final version of your submission. It can be viewed via the submission site. Please review carefully, since **no changes or corrections are permitted after the submission deadline.**

Additional Questions? Please contact Michelle Perkins by email at mperkins@amcp.org.

Status of your abstract submission will be emailed on or before July 31, 2019.

AUTHORS
Save Authors

 • Your submission needs to have a minimum of 1 author with the 'Presenter' role.

Please create the list of authors for this submission. Each submission must have **only one Primary Author and one Presenter**. An author can have multiple roles (for example, an author could be both the Primary Author *and* the Presenter).

The primary author will be the first author in the list.

You can order the authors in the list with the 'up' and 'down' buttons, as well as remove them with the 'X' buttons.

To add new authors, type in a First Name, Last Name, email address and select their role in the field next to the 'plus' button.

To add an author:

- Type the author's first name, last name, email address and select their role.
- Click 'Add Author.'

To complete an author's profile:

- Click on the author's name to complete the profile.
- A **green check mark** indicates a complete profile.
- Once the profile is complete, click 'Save Authors' to complete the task.

Research Priority Areas *

The AMCP Board of Directors and AMCP Foundation Board of Trustees recently approved a four-part research agenda that will identify and prioritize critical evidentiary gaps in managed care pharmacy. The agenda was proposed by the AMCP & AMCP Foundation Joint Research Committee (JRC), which was established in 2016 to promote and encourage the creation and dissemination of relevant and credible research and initiatives to advance patient care services in managed care pharmacy. At AMCP Annual Meeting 2019, accepted poster abstracts that align with the research agenda will be highlighted during the poster session with signage. If applicable, please select which of the four research priority areas your poster abstract aligns with (select all that apply):

- Real world evidence to inform managed care pharmacy decision-making
- Value-based models in managed care pharmacy to address total cost of care
- Impact of benefit design or utilization management strategies on patient outcomes
- Impact of direct patient care services provided by managed care pharmacy on patient outcomes
- None of the above

ADMIN MODE: Multi-author submitter data entry is blocked, but you can [click here](#) this form as an administrator.

Please read the following text carefully.

*** JMCP Publication Rights:**

Encore abstracts will not be published in JMCP due to the copyright ownership of the original presenting organization.

Accepted Professional Reviewed abstracts will be published in a JMCP supplement. As such, copyright clearance must be obtained by JMCP below.

As author of this poster abstract, I represent that I am the owner of any copyright(s) covering the abstract, and in consideration of the publication thereof, I hereby grant and assign to the Academy of Managed Care Pharmacy (AMCP) an exclusive copyright to publish, reproduce, and/or distribute all or any portion of the abstract.

This work was conducted as part of my official duties as an employee of the United States or other government and is therefore in the public domain. Copyright does not apply.

This work was conducted in the course of my work as a "work-made-for-hire" and the work is therefore owned by the organization that hired me to produce this abstract. In consideration of the publication thereof, I attest that the owner of the "work-made-for-hire" grants and assigns to the Academy of Managed Care Pharmacy (AMCP) an exclusive copyright to publish, reproduce, and/or distribute all or any portion of the abstract.

This work is either a Student/Resident/Fellow non-reviewed abstract, or an Encore Abstract, and copyright clearance is not required.

I have read and agree to the above terms and conditions.

Michelle Perkins

Complete Form

Form completed

This form is complete, but you can continue to update it.

If you make changes, don't forget to press the 'Complete Form' button at the bottom of this page.

1. Information needed:

Do you, your spouse, partner or any immediate family have any relevant financial relationships with a commercial interest related to the abstract?

- I have no real or apparent conflicts of interest to disclose.
- I (or my spouse/partner) do have potential conflicts of interest to disclose.

2. Financial Relationships:

Please detail any financial relationships that have begun or ended in the past 12 months.

[Add a financial relationship](#)

3. By submitting an abstract, authors agree to the following requirements:

- 1. Abstracts must present content not previously published as an abstract or article unless it is submitted as an Encore.
- 2. At least one author of each accepted abstract (preferably the primary author) must register for and attend the meeting.
- 3. Conflict of interest disclosure is required.
- 4. Changes to the abstracts will not be considered after the submission deadline.
- 5. Withdrawal of the abstract with no withdrawal fee is permitted 45 days or more prior to the start of the meeting, when the abstract book is sent to the printer.
- 6. The status of the first (primary) author determines Category. If accepted, the Professional Abstracts are published in JMCP. The student/resident/fellow category is automatically accepted, but not published in JMCP.

I certify that the information I have provided is complete to the best of my knowledge and I accept responsibility for the accuracy of the information in response to the aforementioned questions.

Please use your First Name and Last Name only as it appears in the Authors Task.

By signing this box with my electronic signature, I attest that all information above is true and correct.

Complete Form

* Financial Relationship are those relationships in which the individual benefits by receiving a salary, royalty, intellectual property rights, consulting fee, honoraria, ownership interest (e.g., stocks, stock options or other ownership interest, excluding diversified mutual funds), or other financial benefit. Financial benefits are usually associated with roles such as employment, management position, independent contractor (including contracted research), consulting, speaking and teaching, membership on advisory committees or review panels, board membership, and other activities for which remuneration is received or expected. ACCME considers relationships of the person involved in the CME activity to include financial relationships of a spouse or partner. The ACCME has not set a minimum dollar amount for relationships to be significant. Inherent in any amount is the incentive to maintain or increase the value of the relationship.
