2017 AMCP Partnership Forums

AMCP Partnership Forums provide the venue, participants across the health care spectrum provide the insights and expertise

AMCP is offering payers, pharmacies, integrated delivery system leaders, HEOR analysts, academics, providers, pharmaceutical manufacturers and various other health care stakeholders collaborative opportunities to help shape the changing health care landscape.

During these 1 to 1.5 day events, participants collaborate to gain consensus on how to:

- Address key issues, challenges, or opportunities facing the industry and patient populations
- Remove barriers to improve patient care and optimize health care costs

**DRAFT GOALS:**

- Guide the development of an infrastructure that supports quality improvement and accountability.
- Explore how AMCP and other stakeholders can move outcomes- or value-based contracting forward by removing barriers or building new processes and methodologies across managed and integrated care.

**TIMING/LOCATION:** June 20 & 21, 2017 • Arlington, VA

**DRAFT GOALS:**

- Identify the optimal ways to collect and disseminate meaningful pharmacoeconomic information to assess the value of precision medicines.
- Explore benefit design and coverage models for precision medicines, given that traditional population health models may not be applicable.
- Identify the education needs for pharmacists, physicians, and other health care providers, and support systems for patients.

**TIMING/LOCATION:** September 2017 • Washington DC Metropolitan Area

**DRAFT GOALS:**

- Help leverage the promise of patient reported outcomes (PROs) by identifying the key processes, methodologies, and safeguards that must be in place for data accuracy, credibility, and privacy.
- Explore how managed care and integrated care organizations will work together to build education, training, methodologies, and tools to appropriately collect, share, validate, and use PROs.

**TIMING/LOCATION:** October 2017 • Dallas, TX

**DRAFT GOALS:**

- Review and evaluate outcomes used for value-based contracting in oncology pharmaceuticals and quality measures for cancer treatment and palliative care.
- Discuss and map an integrated-benefits oncology care model that can improve quality, avoid unnecessary adverse events, and reduce health care costs and the considerable financial strain on the patient.

**TIMING/LOCATION:** November 2017 • Washington DC Metropolitan Area
Take advantage of these unique opportunities to collaborate

- **Help shape** the future of managed care pharmacy with your ideas and insights.
- **Participate** in discussions and workshops addressing key issues and some of the biggest concerns facing the health care industry. Share best practices, and collaborate on new and innovative approaches to improving patient outcomes with your industry peers.
- **Use the knowledge** you gain from the forum, as well as the published proceedings and recommendations, to improve your organization’s ability to provide high-value, quality patient care or engage key managed care and integrated care customers.
- **Recognition**: Sponsor companies will be recognized as an official sponsor on all Forum-related materials and receive a spot for one official representative and one observer during the forum.

### Partial list of 2016 Partnership Forum partners

- AbbVie
- Amgen
- Boehringer Ingelheim
- Bristol-Myers Squibb
- Celgene
- Dexcom, Inc.
- Foundation Medicine
- GlaxoSmithKline
- Insulet Corporation
- Intarcia
- ION Solutions
- Janssen Oncology
- Lilly
- Merck & Co., Inc.
- National Pharmaceutical Council (NPC)
- Novartis
- Novo Nordisk
- Pfizer Inc.
- Pharmaceutical Research and Manufacturers of America (PhRMA)
- Precision for Value
- Sanofi
- Takeda Oncology
- Xcenda
