Member Feature! Expedite Planning with AMCP's Expanded Drug Product Pipeline

Gain insights today into the treatments in development that will impact tomorrow's formulary decisions in the expanded and updated AMCP Product Pipeline. Designed to alleviate the workloads of pharmacy benefit managers and health care decision makers, the Pipeline aggregates data from government databases as well as other publicly available sources to provide a one-stop portal featuring the next generation of pharmaceuticals. New in December, members can monitor information on which products received FDA expedited program designation or have accelerated approval confirmatory trial commitments to guide planning.

PIE Act Gains Bipartisan Momentum Ahead of End-of-Year Push

AMCP's top legislative priority, the PIE Act, was reintroduced to Congress last month. The proposal's core tenet allows payers to review new treatments alongside the FDA, saving months or years that could be the ultimate difference for some Americans, without sacrificing safety or standards. AMCP thanks Representatives Anna Eshoo, Brett Guthrie, Scott Peters, Morgan Griffith, and Doris Matsui for their bipartisan support and stands ready to work with them to get PIE signed into law this year. Learn more about this effort in AMCP CEO Susan Cantrell's latest blog post.
