# MEMBERSHIP TESTIMONIALS

Here's what our members are saying about their membership!

I joined AMCP during my managed care residency and have remained an active member going on 11 years, serving on several committees. AMCP has helped me grow professionally through cutting edge programming, continuing education, and networking. However, the main reason I remain engaged is the welcoming atmosphere and strong sense of community that AMCP enables especially at the live meetings and through volunteering opportunities. If you're not yet a member, sign up and get involved so that we can shape the future of the profession together.

As the healthcare landscape continues to evolve, so do many of our roles within it. I faced this situation myself two years ago when I began leading a team of payer account managers. I had heard great things about the AMCP meetings as a way to learn and network so I planned to attend the upcoming meeting. I learned that there was a discount available for members to attend the meeting so I decided to join. This has turned out to be a fortunate decision! In addition to the meeting discounts (which almost pays for the membership itself), I have gained access to a number of educational resources.

The knowledge gained from AMCP publications and webinars in addition to professional connections I've formed at meetings have allowed me to elevate my status as a thought leader. Additionally, participation in the Academy continues to allow me to stay current in an ever-changing healthcare landscape.
