

PARTNERSHIP FORUM

No. 1 — 2022

High-Investment Medications

APRIL 26-27, 2022
RENAISSANCE ARLINGTON CAPITAL VIEW HOTEL

WELCOME

Thank you for your participation in this important Partnership Forum, which will explore High-Investment Medications.

AMCP has been at the forefront of health care innovation for more than 30 years, and today we continue that proud tradition by taking a leadership position around addressing payment and benefit challenges for high-investment medications and explore alternative payment reform, financial tools, and policy initiatives to improve the predictability, affordability, and accessibility of high-investment treatments.

As novel therapies to address important medical needs are approved, the high costs for these medications — and especially cell and gene therapies — can raise sustainability and affordability concerns for employers, payers, and patients. High short-term investments present clinical and financial challenges that are magnified when the long-term health benefits are uncertain, patients switch employers or enroll in different health plans, or complex care coordination is needed. New payment policies and application of 21st century financial and technical tools can mitigate risk and affordability concerns.

This Partnership Forum has two goals: the first is to identify challenges for high-investment medications, including payment issues and policy hurdles. The second goal of this meeting is to identify potential solutions to address these challenges and ultimately get patients the medications they need at a cost they can afford.

During our invitation-only Partnership Forums, we rely on a range of perspectives, including those of payers, pharmacy benefit managers, integrated delivery system leaders, actuaries, providers, employer groups, pharmaceutical manufacturers, and patient groups. Our efforts here collaboratively help shape the changing health care landscape.

Thank you to our generous sponsors that make this event possible: Bristol Myers Squibb, Janssen, Precision Value & Health, Sandoz, Seagen, and Takeda.

Following the forum, AMCP will produce proceedings documenting findings and recommendations in an upcoming issue of AMCP's *Journal of Managed Care* + *Specialty Pharmacy,* which is widely disseminated to decision makers around the country. Also, we also plan to present a webinar summarizing the findings and recommendations.

I look forward to this AMCP Partnership Forum and its resulting findings and recommendations. Thank you for your participation.

Sincerely,

Susan A. Cantrell, RPh, CAE

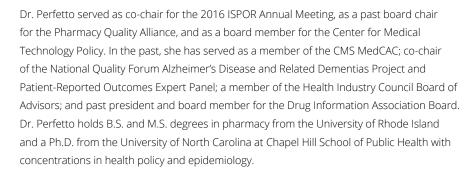

AMCP CEO

MODERATOR

Dr. Eleanor Perfetto, Professor

University of Maryland School of Pharmacy, Former Executive Vice President National Health Council

Eleanor Perfetto currently serves part-time faculty appointment at the University of Maryland School of Pharmacy, where she is a professor of pharmaceutical health services research. Until 2021, she served as the interim CEO and executive vice president for strategic initiatives at the National Health Council. Her research and policy work primarily focuses on patient engagement in health care, including comparative effectiveness and patient-centered outcomes research; medical product development; patient-reported outcome selection and development; value assessment; and health care quality. Past positions include senior director of federal government relations at Pfizer Inc, the U.S. Public Health Service as senior pharmacoepidemiologist at the Agency for Health Care Policy & Research (now Agency for Healthcare Research & Quality), and began her government career as a pharmacist in the Indian Health Service in South Dakota and Oklahoma.

Dr. Perfetto has served as an assistant editor for the *Journal of Managed Care + Specialty Pharmacy* and serves as a peer reviewer for journals, the Patient-Centered Outcomes Research Institute, government granting agencies, and pharmacy professional organizations. In 2009, she received the Distinguished Alumni Award from the University of Rhode Island.

As a caregiver for a spouse who suffered from dementia due to chronic traumatic encephalopathy, Dr. Perfetto is a recognized advocate for patients with head-trauma-related dementia and their families. She has received multiple awards, including the Alzheimer's Association New York City Chapter Advocacy Leadership Award (2007), the Alzheimer's Association National Capital Area Chapter Award for Advocacy & Awareness (2010), and the Legacy Award from the Concussion Legacy Foundation (2012).

To our distinguished participants and guests.

About AMCP

AMCP is the professional association leading the way to help patients get the medications they need at a cost they can afford. AMCP's diverse membership of pharmacists, physicians, nurses, and professionals in life sciences and biopharmaceutical companies leverage their specialized expertise in clinical evidence and economics to optimize medication benefit design and population health management, and help patients access cost-effective and safe medications and other therapies. AMCP members improve the lives of nearly 300 million Americans served by private and public health plans, pharmacy benefit management firms, and emerging care models.

AMCP Mission

To improve patient health by ensuring access to high-quality, cost-effective medications and other therapies.

AMCP | Academy of Managed Care Pharmacy
