

## Great Plains AMCP 2023 Day of Education

University of Missouri-Kansas City, School of Pharmacy & Nursing

Friday, September 15, 2023 | 8:00am – 4:00pm

## AGENDA

*Presenters Include:*

**1. Courtney Younglove, MD, FOMA, FACOG, DABOM**

a. **Title:** Obesity: An Economic Problem?

**b. Objectives:**

- i. Describe the impact obesity and obesity-related diseases have on the economic health of organizations.
- ii. List the short- and long-term costs of proactive and reactive treatments of obesity as part of an overall healthcare strategy.
- iii. Describe the essential components necessary to craft a strategy to address obesity within the workplace.

**2. Bethany Holderread, PharmD**

a. **Title:** New Drug Update September 2023

**b. Objectives:**

- i. List notable therapies approved by the FDA within the last year and their indications for use.
- ii. Describe important considerations for therapies approved by the FDA within the last year regarding patient selection, dose, and administration.
- iii. Identify novel therapies with limited therapeutic alternatives.

**3. Andrea Henry, PharmD, MBA, BCPS, CSSBB, 340BACE**

a. **Title:** Sources and data used to review new drug products

**b. Objectives:**

- i. Identify data sources to review new drug products.
- ii. Explain the importance of new drug product reviews.
- iii. Describe what sources may be valuable and those that may not be valuable to new drug product reviews.
- iv. Identify key elements of a new drug product review.

**4. Kristin Gernon, LCSW, LMSW**

a. **Title:** Meeting the Moment: Evolving Strategies to Address the Growing Behavioral Health Crisis

**b. Objectives:**

- i. Promote understanding of mental health challenges prevalent in the U.S. and the significant increase in deaths attributed to unmet behavioral health needs including deaths by suicide, opioid misuse deaths, and alcohol-related deaths.

- ii. Explore initiatives focused on addressing the behavioral health crisis including current treatment trends, care integration, digital innovation, and future opportunities for intervention.
- iii. Identify barriers to accessing behavioral health care, strategies to address the lack of behavioral health providers, the importance of prevention and early intervention, and making the shift to a more holistic care model.
- iv. Understand how mental health stigma leads to prejudice and discrimination, delayed (or no) treatment, poor health outcomes, and deaths of despair.

**5. Casey Reed, PharmD, MBA, MS, ASC, CSP**

- a. **Title:** Data Visualization and Storytelling 2.0
- b. **Objectives:** TBD

**6. Final Speaker - TBD**
